

## Cambridge Society for the Application of Research

### VISIT

**Thursday 20<sup>th</sup> March 2014**

**at 11.00am**

**David Ball Building, Wellington Way, Bourn, Cambridge CB23 8AY**

---

#### About David Ball Group

**David Ball Group** is a locally-based research-led company which specialises in researching, developing, manufacturing, and distributing specialist cementitious and sand products to provide bespoke solutions for the construction and building industry.

They are especially noted for their pioneering low-carbon cement-free "Cemfree" product.

David Ball Group export their world-leading high quality products to clients worldwide, continually improving the quality of their products and services in response to each customer's particular needs.

Our visit will include an introduction to their research activities and their longstanding links with the University of Cambridge, and a tour of their research laboratory and production facility.

---
